| Warranty                  | Pro Support Plus and Accidental Damage Protection, 24 Months                                                                                                                                                                                                                                                                                                                  |
| Operating System          | Support Windows Embedded Systems<br>OS Options to ensure the device meets specific needs.                                                                                                                                                                                                                                                                                     |
| Power                     | Rechargeable Power Adapter top plug for South Africa                                                                                                                                                                                                                                                                                                                          |
|                           |                                                                                                                                                                                                                                                                                                                                                                               |

#### **CURRENT PanSALB ENVIRONMENT**

The proposed hardware must be compatible with the current SAGE EVOLUTION ERP within Pan South African Language Board (PanSALB) environment.

Dell Latitude 5430, Windows Server 2022, SQL 2022, SAGE Evolution (On-Prem)
